Indications
Tablet: BOST tablet is indicated for the treatment of Vitamin B1, Vitamin B6 & Vitamin B12 deficiency syndrome. It is also indicated in the treatment of:
- Back pain
- Diabetic neuropathy
- Lumbago
- Myalgia
- Sciatica
- Trigeminal neuralgia

Injection: This preparation is indicated for the treatment of Vitamin B1, Vitamin B6 and Vitamin B12 deficiency syndrome. It is also indicated in the treatment of:
- Back pain
- Diabetic neuropathy
- Lumbago
- Myalgia
- Sciatica
- Trigeminal neuralgia
- Facial paralysis
- Optic neuritis
- Cardiac complications

Dosage and Administration
Tablet: 1 to 3 tablets per day or as directed by the physician.

Injection: This injection is preferably injected intramuscularly (deep intragluteal). In severe cases, 1 ampoule daily until the acute symptoms subside. For milder cases and follow-up therapy 2 or 3 ampoules should be injected per week.

Contraindications
Should not be used in the patients on levodopa therapy and hypersensitivity to any of the product ingredients.

Side Effects
Generally well tolerated. A few allergic reactions may be seen.

Precautions
Cyanocobalamin should not be given before a diagnosis has been fully established because of the possibility of masking symptoms of sub-acute degeneration of the spinal cord.

Drug Interactions
No such drug interactions have been reported.

Use in Pregnancy and Lactation
This preparation is safe for pregnant women.

Storage Conditions
Store in a cool and dry place, away from light. Keep out of reach of children.

Commercial Pack
BOST Tablet: Each box contains 5 blister packs of 10 tablets.

BOST IM Injection: Each box contains 2 blister packs of 3 ml sterile solution.
