

Night fresh

White soft paraffin, Liquid paraffin & Wool alcohol
Sterile Lubricant Eye Ointment

Presentation

Night fresh : Each gm sterile eye ointment contains White Soft Paraffin 573 mg, Liquid Paraffin 425 mg and Wool Alcohol 2 mg.

Preservative: Free

Pharmacological Action

White soft paraffin, liquid paraffin & wool alcohol combination eye ointment produce a transparent, lubricating and moistening film on the surface of the eyeball. White soft paraffin, liquid paraffin & wool alcohol eye ointment provides soothing relief from the symptoms of dry eyes such as soreness, irritation or a gritty sensation. These may be caused by inadequate production of tears to keep the eye moist or by things such as certain medical conditions or treatments. The ointment also helps to protect the eyeball and can thus be useful for people who suffer from recurrent corneal epithelial erosion.

Indications

White soft paraffin, liquid paraffin & wool alcohol combination eye ointment is indicated in dry eye condition particularly useful at night as it remains in the eye longer than drops. It is used as adjunctive therapy to lubricate and protect the eye in conditions such as exposure keratitis, decreased corneal sensitivity, recurrent corneal erosions, keratitis sicca, and ophthalmic surgery.

Dosage and Application

Apply a ribbon of ointment (1-1.5 cm) into the affected eye(s) prior to going to sleep or as directed by doctor.

Contraindications

Hypersensitivity to any component of the medication.

Side Effects

Stinging/redness in the eye, widened pupils or blurred vision may occur.

Precautions

Ophthalmic use only. If patients experience headache, eye pain, vision changes, irritation of the eyes, persistent redness or if the condition worsens or persists for more than 72 hours discontinue use and consult with doctor

Use in Pregnancy & Lactation

There is no data from the use of white soft paraffin, liquid paraffin & wool alcohol combination eye ointment in pregnant women. However, all three components are pharmaceutical excipients that are considered to be pharmacologically inert, non-irritating and nontoxic. *Nursing Mother:* It is unlikely that wool fat, liquid paraffin or white soft paraffin eye ointment are excreted in human milk.

Storage Conditions

Store in a cool and dry place away from light. Keep out of reach of children. Do not touch the tip to surfaces since this may contaminate the product. After one month of the opening do not use the medicine of tube.

Commercial Pack

Night fresh : Each tube contains 5 gm sterile eye ointment.
