Glytear P

Polyethylene Glycol 400 & Propylene Glycol Sterile Eye Drops

Presentation

Glytear P: Each ml sterile eye drops contains Polyethylene Glycol 400 USP 4 mg & Propylene Glycol USP 3 mg.

Preservative: Purite (Stabilized Oxychloro Complex) 0.005%

Vehicle: HPMC 0.2%

Excipients: Sodium Chloride, Potassium Chloride, Calcium Chloride, Magnesium Chloride & Zinc Chloride.

Pharmacological Action

The combination of Polyethylene Glycol & Propylene Glycol is clinically proven to reduce both signs and symptoms of dry eye. The mechanism of action is thought to be due to its unique gelling and lubricating system formulated to adjust to each user's individual tear p^H. When the ingredients of this eye drops combine with natural tears, a soft gel forms a network of protection over the eye surface. Since it promotes a healthy environment in eye surface, damaged surface cells of eye can repair more easily.

Indications

Glytear P is indicated for the temporary relief of burning and irritation due to dryness of the eye.

Dosage and Application

Instill 1 drop 4 times daily in the affected eye(s) or as needed.
